The Power of Clever Thinking

HR-V

The Honda HR-V.

A willing accomplice
that's ready when you are.

That's the power of clever thinking.

HR-V VTi-L with ADAS shown in Morpho Blue Pearlescent.

Every great adventurer needs a co-conspirator. Whether you're heading for brunch in town or a beach far from it, the Honda HR-V is ready, willing and able. It's a 5-door SUV on a compact scale. Nimble like a hatch, and thrilling like a coupé, you'll find clever thinking everywhere you look.

Under the hood lies a 1.8 litre i-VTEC petrol engine – perfectly proportioned for this new generation of sub-compact SUV. But don't let size fool you. There's room for those who live big. With Honda's famously flexible Magic Seats, the concept of cabin space has changed forever.

Speaking of clever ideas, the 7-inch Display Audio screen is your new favourite front seat passenger – there to keep the beat going and connect you to the world outside.

As a screen for the multi-angle reversing camera, it can also help you manoeuvre safely. Intelligent advancements like City-Brake Active System and LaneWatch have made their way into the VTi-S model and above, as well as the optional Advanced Driver Assist System (ADAS) in the VTi-L^.

The Honda HR-V is no ordinary car. Think of it as a new friend. A friend that's going places.

^Optional ADAS is an additional cost item on the VTi-L.
HR-V VTi-L shown in Alabaster Silver Metallic.

THE STRONG SILENT TYPE.

With a dynamic stance that gives rise to a sleek upper body, the HR-V cuts a surprisingly chiselled profile for a car of its size. Strong, sculptural lines evoke sports car as much as SUV.

But SUV is in its DNA. The driver is positioned high on the road for superior visibility, while details like the front fog lights^, 17-inch alloy wheels#, shark fin antenna and tailgate spoiler command attention.

Like a moth to a flame, you'll feel the allure of the beautifully designed lighting system. LED turn indicators have been imaginatively integrated into the door mirrors, while the VTi-S and above models feature charismatic LED Daytime Running Lights (DRLs), LED auto-adjust headlights, and an LED tail light guiding stripe that looks smart and emits a futuristic glow.

Everything about the HR-V shouts adventure. From its cleverly concealed rear door handles (hint: they're behind the window), to the sporty black grille and trim, to the roof rails that are featured on the VTi-S and above, it's clear there's even more to this car than initially meets the eye.

^VTi-S and above. #VTi-S and above; VTi-L features 17-inch alloy sports wheel design.
HR-V VTi-L with ADAS shown in Morpho Blue Pearlescent.

Room with a view.

Finally, the world revolves around you. Introducing the electric panoramic sunroof* – a window to bring you and your passengers closer to nature. While the glass is tinted to control cabin light it can be tilted up or retracted just like a normal sunroof to let the summer sun shine in.

*Featured on VTi-L models and above.
HR-V VTi-L with ADAS shown.

Welcome to the great indoors.

Inside lies a space practically without limits, where simple, streamlined design and clever compartments mean more room for the things that matter most – people.

It's all about comfort in here. Even long legs will rest easy in the rear seats, while little luxuries like the soft-touch centre console and dashboard, sophisticated stitch detail, and piano black and chrome accents will make you feel at home, even when you're away from home.

Choose the top of the line VTi-L model and you'll enjoy the leather-appointed interior with heated front seats[9]. And thanks to Honda's game-changing Magic Seats, which fold away to almost nothing, every HR-V comes ready for action. Even with two bikes in the back, you'll have plenty of room up front.

[9]Leather seats include non-leather material on selected, high-impact surfaces.
HR-V VTi-L with ADAS shown.

Take the controls.

Not simply a driver's seat but a sophisticated cockpit, the HR-V positions you high above the road for enhanced visibility. From here, everything else you need to control your journey is beautifully laid out in front of you.

It starts with your infotainment hub – a 7-inch Display Audio colour touchscreen. Stay connected to the outside world or set it to the soundtrack of your favourite music. With the impressive acoustic dampening materials used in the HR-V, your tunes will be easily heard over the traffic outside.

All the information you need is displayed simply, and elegantly lit. Fuel consumption, trip distance, outside temperature and more are kept in easy view on the Multi Information Display (MID) screen.

Even the usual manual park brake has been replaced by a more intuitive electronic design. Engage the Electric Parking Brake (EPB) with a simple switch. It is then released automatically with a touch of the accelerator pedal if the driver's seatbelt is buckled in. Now that's clever thinking.

HR-V VTi-L with ADAS shown.

For those who like to pack a lot in.

We can't spare you from having to load up the luggage for your next adventure, but we can make it less difficult. With an astonishingly low, extra-wide tailgate, it's never been easier to pack it all in.

Awkward items like golf clubs slide in and out with ease. While discreet compartments let you hide your most prized possessions. But the real secret to the HR-V's miraculous use of space lies in the seats themselves. With 18 possible seating configurations, there is no cargo too tricky for Magic Seats.

Tall Mode

Sometimes a little extra height is all you need. Just flip up the rear seats to take full advantage of the distance between floor and ceiling. Perfect for a trip to the garden centre.

Long Mode

Sometimes the right gear is exactly the wrong shape. But flip down all the seats on one side and you'll find a long thin space that's fit for a surfboard or anything else you might usually keep on the roof.

Utility Mode

What's an adventure without a few toys for the ride? The lie-flat rear seats in the HR-V make it possible to bring just about anything you need. A stack of camping equipment – no problem.

Tall Mode.

Long Mode.

Utility Mode.
HR-V VTi-L shown.

Display Audio – VTi-L model shown.

Touch and go, while connected.

It looks futuristic. And it is. The 7-inch colour touchscreen Display Audio unit keeps you connected to your world without distracting you from the road.

Just tap or swipe for easy access to your phone contacts, music and trip information. Syncing with your compatible smartphone allows you to go hands-free with all the functionality of Bluetooth®° or Siri®+.

That means you can answer calls and even send text messages+ all while your eyes remain on the road and without taking your hands off the wheel. Talk about a perfect accomplice.

Bluetooth® controls.

USB/HDMI® ports.

Multimedia

You wouldn't set out on an adventure without your favourite tunes on hand. The HR-V gives you options – a CD player, USB ports and HDMI® port§ plus Bluetooth® audio streaming° So you won't miss a single beat. Of course, you can always tune in to your favourite station with the AM/FM radio.

USB/HDMI® Ports

While tucked discreetly away below the centre console, your devices can stay charged via a USB port, while playlists can be accessed on-screen using your compatible smartphone. Pull over and the screen becomes an HDMI® ready video player§.

Handsfree Connectivity

Your compatible smartphone and the HR-V make the perfect pair. With Bluetooth®° and Siri®+ to control your contact list, music and more, you'll be in clever company wherever the journey takes you.

Trip Information and Settings

Stay on track with the right information laid out exactly as you need it. Customise your ride to display the data that matters to you, from fuel consumption to trip distance.

More eyes on the road.

LaneWatch camera

LaneWatch Display

Multi-angle reversing camera

Reversing camera screen

When you're breaking new ground, it's handy to be able to see where you're going. The HR-V provides a multi-angle reversing camera – normal view, wide view and top-down view – which all display conveniently on the screen in front of you. But the most ingenious camera angle of all is LaneWatch. Designed to minimise one of the most notorious blind spots for any vehicle, LaneWatch comes standard on the VTi-S and above. Mounted beneath your left-hand door mirror, the blind spot camera appears on screen from the first moment you signal left. When it comes to safety, HR-V has you covered.

Electric Parking Brake (EPB)

With just the flick of a switch, your car is in park mode, making clumsy handbrakes ancient history. When you're ready to get back on the road, EPB automatically disengages as you press the accelerator pedal as long as the driver seatbelt is fastened.

One touch turn signal

With a gentle push of the turn indicator, HR-V indicates three times before automatically turning off. For continuous indication, just press until you feel it lock into place.

VTi-L shown.

Electrostatic climate control

Conduct the interior climate from the front seat using the button-free electrostatic climate control panel. Simply swipe up or down or tap to pinpoint your perfect cruising temperature.

6-speaker audio system

Select your playlist and prepare to be surrounded by exceptional sound with the HR-V's beautiful 6-speaker sound system.

Roof rails

Because you never know where the next adventure could take you, it pays to be ready for anything. The roof rails with the Roof Rack Set accessory option extend the HR-V storage capacity even further. (VTi-S and above).

Smart entry with push button start

Approach the car with key fob in pocket (or bag) and just like magic, the front door or boot will automatically release. Then take your place behind the wheel, push start, and you're on your way (VTi-S and above).

Front fog lights

Every bit as practical as they look, these stunning fog lights lend an authentic SUV quality to the front grille. Made to light up the path ahead in foggy conditions, they're ready to come to the rescue (VTi-S and above).

Automatic wipers

Talk about the perfect accomplice. When the HR-V notices the first signs of rain, it can automatically engage the windscreen wipers. Once the weather has passed, it'll return them to the off position (VTi-S and above).

Retractable mirrors with integrated LED side indicators

The integrated LED turn indicators not only look good but also stand out to others on the road so you're more likely to be seen when making that turn. And when the car is parked, the side mirrors can conveniently retract with the push of the button (VTi-L only).

Sports pedals

Often it's the small details that enrich the bigger picture. So when you choose the advanced VTi-L model, you'll receive Honda's exceptionally well-crafted alloy sports pedals as part of the package (VTi-L only).

Leather-appointed+ heated front seats

Wherever you go, you'll arrive in luxurious comfort in the beautiful, leather-adorned seats. Found exclusively in the VTi-L model, the front seats can be heated – a nice touch, but pure genius in the clutches of winter.

Brake Hold

Never again will you spend your time at the lights or stopped in traffic stepping on the brake pedal. Simply press the automatic Brake Hold button and the system will hold the HR-V in position without you having to step on the brake. The system automatically releases the brake as you press the accelerator pedal so long as the driver's seatbelt is engaged.

+Leather seats include non-leather material on selected, high-impact surfaces.

It’s going places.

Small tends to mean agile. It often means economical. It always means fun. And those things are certainly true of the HR-V.

But what makes this car unique is the way it defies classification. From its 1.8 litre i-VTEC SOHC petrol engine, the HR-V generates up to 105kW of power and is capable of 172Nm of pulling power. Paddle shifters in the VTi-L model put that sportiness directly in your hands.

All the while, Honda’s state-of-the-art Earth Dreams CVT adjusts to the driving conditions and coaches the engine to operate at the most efficient rpm level. That means a smooth drive that’s easier on your passengers and your wallet.

Another exciting feature is Motion Adaptive Electric Power Steering (MAEPS), which works with Vehicle Stability Assist (VSA) to automatically adjust steering pressure, making it easier to steer in the stabilising direction.

A firm grasp on the road

Every contour of the HR-V has been maximised for strength, agility and performance. Reinforced steel and high-efficiency joint structures create incredible stability and rigidity at a much lower weight.

It’s just one of the reasons why the VTi is so efficient at 6.6L/100km*, with the VTi-S and VTi-L models close behind at 6.9L/100km*.

Moving the fuel tank forward and centre hasn’t just revolutionised the cargo space. It also gives the HR-V a lower centre of gravity, as if hugging the road. Cornering on the open road is a beautiful thing. Even in enclosed areas like parking lots or urban intersections, the HR-V manages a tiny 5.3m turning radius. There’s nothing that can get in the way of your adventure.

Eco Assist

Advanced technology is only part of good fuel economy. The other side of the equation lies with the person in the driver’s seat. Imagine a driving coach that helps you to drive more efficiently.

Eco Assist is a visual training system that responds to your drive. Brake or accelerate heavily and the outer ring of the HR-V speedometer glows white^. Keep it smooth and under control and you’ll be rewarded with an encouraging green glow.

EARTH DREAMS TECHNOLOGY

*Fuel consumption figures quoted are based on combined cycle test results for ADR81/02.
^White is the speedometer default colour setting. This can be customised to blue, purple, pink, red or yellow.

HR-V VTi-S shown in Ruse Black Metallic.

WE'RE OBSESSED WITH SAFETY. THAT'S WHY WE BUILT THE WORLD'S LARGEST OMNI-DIRECTIONAL CRASH TEST FACILITY.

Motion Adaptive Electric Power Steering (MAEPS)

When VSA is activated, Motion Adaptive Electric Power Steering (MAEPS) automatically adjusts steering pressure, making it easier to steer in the stabilising direction.

Security alarm

You'll see the envy in others' eyes – just one of the reasons why Honda has equipped the VTi-S model and above with a security alarm. Perfection is worth protecting.

Airbags

The clever Honda i-SRS driver airbag system inflates at different rates depending on crash severity, seatbelt usage and a host of other factors to keep you safe behind the wheel. Dual front, side and full-length curtain airbags are standard.

Whiplash mitigating front seats

In the event of a collision, the seatback springs are optimised so that the seat will more equally absorb the occupant's impact. This has the potential to cleverly minimise the risk of a whiplash injury.

Emergency Stop Signal (ESS)

Occasionally the situation requires sudden, heavy braking. For the driver behind you, this creates an emergency situation all of its own. So the HR-V automatically flashes its hazard lights to alert those to your rear.

Customisable speed alarm

It's easy to get swept up in the adventure. So set the speed alarm at whichever top speed you choose and the HR-V will provide a visual and audible alert if that limit is ever exceeded.

Multi-angle reversing camera

Feel as safe going backwards as you do going forwards with the amazing addition of the multi-angle reversing camera system. With normal view, top-down view and a special wide view, you'll always be covered.

Advanced Compatibility Engineering (ACE)

A brilliantly innovative body structure means that the impact from any possible frontal collision is directed away from the passenger compartment. So wherever you're seated, you'll feel that much safer in the HR-V.

Parking sensors

Slip in or out of tight spots with ease thanks to the HR-V's front and rear parking sensors. These sound a helpful alert to let you know how much space exists between you and the nearest object. Standard on the VTi-L.

Pedestrian protection

It's not just your safety Honda has considered. With smart design features that absorb energy or break away under pressure, a pedestrian has a greater chance of survival if struck.

Tyre Deflation Warning System (DWS)

Be alerted long before it becomes an issue. The Deflation Warning System (DWS) keeps track of the pressure in all four tyres and reports to you if one is getting low.

Hill Start Assist (HSA)

HSA prevents 'rolling back' when starting on an incline. The system controls brake pressure, keeping the car stationary as you release the brake pedal and prepare to accelerate.

Anti-Lock Braking System (ABS) and Electronic Brake Force Distribution (EBD)

The HR-V comes armed with ABS for superior stopping power. When emergency braking is detected Brake Assist applies maximum braking pressure whilst EBD monitors and adjusts the brake force on each wheel.

Vehicle Stability Assist (VSA) with Traction Control

In adverse driving conditions, the HR-V is able to detect oversteer or understeer, and automatically adjust its path for stability and safety. It can also manage brake pressure and engine power to help you regain control.

HR-V VTi-L with ADAS shown in Morpho Blue Pearlescent.

Get out of trouble before you're in it.

Honda has worked tirelessly to ensure the safest and most comfortable driving experience no matter the situation. Nothing demonstrates this endless search for safety more than the addition of City-Brake Active System* and the Advanced Driver Assist System (ADAS)^.

City-Brake Active System (CTBA)*

The reason we call them accidents is that we don't expect them to happen. City-Brake Active System is Honda's way of minimising the impact of an unavoidable collision at low-speed on city streets. The result is less damage to the car and better protection for everyone inside.

1. A laser sensor mounted behind the rear-view mirror monitors if there is a vehicle in front of you.

2. If a potential collision is determined the system will alert the driver with audible and visual warnings. When a collision is deemed unavoidable, the system will automatically apply hard braking and reduce its speed.

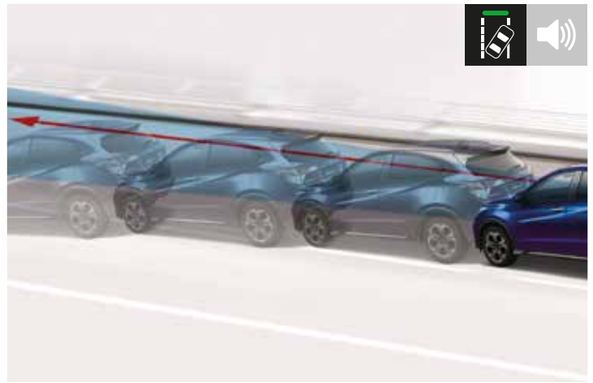
*Standard on the VTi-S and above. City-Brake Active System operates when the vehicle is travelling at approximately less than 32km/h. City-Brake Active System should not be used in place of safe driving practices. Do not rely on City-Brake Active System to avoid possible frontal collisions.

Advanced Driver Assist System (ADAS)^

Honda's Advanced Driver Assist System is an optional package of incredibly clever safety features that could make all the difference if the worst was to happen.

ADAS includes:

- Lane Departure Warning (LDW)
- Forward Collison Warning (FCW)
- High-Beam Support System (HSS)



Lane Departure Warning (LDW)

Imagine if your car could read the road. Well, now it can. With a camera designed to identify lane markings, the driver is alerted any time the car begins to stray out of its lane without the turn signal engaged. By alerting the driver with visual and audible warnings, a side-on collision can be easily prevented.

Forward Collision Warning (FCW)

By monitoring your speed and the closing distance of the vehicle in front of you, Forward Collision Warning is able to alert you in advance to a possible collision when travelling above approximately 15km/h.

High-Beam Support System (HSS)

Your car doesn't just read the road – it can also read the oncoming traffic. This allows the headlight beams to adjust automatically as the environment changes. So you can stop worrying about who's coming the other way and concentrate on the drive in front of you.

^Optional ADAS is an additional cost item on the VTi-L. ADAS should not be relied on for avoiding collisions. The driver remains responsible for safely operating the vehicle.

Select your model

VTi

The VTi comes standard with:

- 1.8 litre SOHC i-VTEC 4-cylinder engine
- 105kW @ 6500rpm and 172Nm @ 4300rpm
- Continuously Variable Transmission (CVT)
- Electric Parking Brake (EPB)
- 16-inch alloy wheels
- Tailgate spoiler
- Electrically adjustable door mirrors with integrated LED turn indicators
- LED tail lights
- Halogen headlights with Daytime Running Lights (DRLs) – bulb type and Auto-off timer
- Power windows with auto up/down (driver and front passenger)
- One-touch turn signal
- Black fabric seat trim
- Tilt and telescopic adjustable steering wheel
- Accessory 12V power outlet (x1)
- Cruise control
- Single-zone automatic climate control
- Magic Seats
- Six speaker audio
- Display Audio (7-inch colour touchscreen) including:
  - AM/FM radio and CD player
  - Bluetooth® phone and audio connectivity°
  - USB port (x2)
  - HDMI® port^
  - Siri Eyes Free+ mode
- Multi-angle reversing camera
- Anti-lock Braking System (ABS)
- Brake Hold function
- Customisable speed alarm
- Electronic Brake-force Distribution (EBD)
- Emergency Stop Signal (ESS)
- Hill Start Assist (HSA)
- Motion Adaptive Electric Power Steering (MAEPS)
- SRS airbags dual front, side and full-length curtain
- Tyre Deflation Warning System (DWS)
- Vehicle Stability Assist (VSA)

VTi-S

Additional features over the VTi:

- 17-inch alloy wheels
- Smart entry with push button start
- Front fog lights
- Reverse auto-tilt mirror (passenger side)
- LED auto headlights with auto-levelling
- LED Daytime Running Lights (DRLs)
- LED guide style tail lights
- Rain-sensing auto wipers
- Roof rails
- Accessory 12V power outlet (x3)
- Driver back seat pocket
- Chrome interior finishes
- Leather-wrapped gear shift knob
- Leather-wrapped steering wheel
- City-Brake Active System (CTBA)
- LaneWatch
- Security alarm

VTi-L

Additional features over the VTi-S:

- 17-inch alloy sports wheels
- Paddle shifters
- Sports pedals
- Leather-appointed seat trim†
- Heated front seats
- Panoramic sunroof
- Privacy glass (rear)
- Electrically retractable door mirrors
- Auto up/down windows – driver and all passengers
- Remote key FOB operation
- Front and rear parking sensors
- Dual-zone automatic climate control
- Chrome door handles
- Rear centre armrest

Optional ADAS includes:

- Forward Collision Warning (FCW)
- Lane Departure Warning (LDW)
- High-Beam Support System (HSS)

Trims

Black fabric seat trim – VTi and VTi-S models.

Black leather-appointed seat trim† – VTi-L models.

• Standard feature. – Not available. ■ Accessory option. ▲ Available as part of the optional Advanced Driver Assist System Pack. *The figures quoted are based on ADR81/02 test results.
°Requires compatible Bluetooth device. The Bluetooth word mark is owned by Bluetooth SIG, Inc. and use of such mark by Honda is under licence. Please check the list of compatible phones at honda.com.au/Bluetooth. ⁺Requires compatible iOS7 device (iPhone 4S or newer) †Leather seat trim includes non-leather material on selected, high-impact surfaces. ‡Compatible with iPhone 5 (running iOS7) or newer. Operates only while the vehicle is stationary. Requires HDMI cable, Apple-approved lightning cable and Digital AV adapter (these items may be purchased separately from your Honda Dealer).
⁹City-Brake Active System should not be used in place of safe driving practices. Do not rely on City-Brake Active System to avoid possible frontal collisions.
Apple, iPhone and Siri are trademarks of Apple Inc., registered in the U.S. and other countries. HDMI is a registered trademark of HDMI Licensing LLC in the United States and other countries.
IOS is a trademark of Cisco in the U.S. and is used under licence. All other trademarks are properties of their respective owners.

You're never alone in a Honda.

Buy a HR-V and you'll be amazed at how well you'll be looked after.

The care starts with a 3-year/ 100,000km warranty and 6-year rust perforation warranty*.

You'll also have access to HondaONE, an exclusive website that gives you up-to-date service history, vehicle records, maintenance tips and service reminders.

Plus Honda have a range of benefits that ensure your HR-V is as pleasurable to own as it is to drive.

Dedicated Honda Care

Servicing your HR-V at a local Honda Dealership will ensure you protect your investment and maximise its outstanding resale value. Dedicated Honda Care provides access to specialist diagnostic equipment and Honda Genuine Parts. There's also the advantage of factory-trained technicians with unparalleled knowledge of Honda products.

Honda Warranty Plus†

Purchase Honda Warranty Plus and your HR-V will be protected with no claim limits and no cost for labour and parts for 5 years or 140,000 kilometres (inclusive of New Vehicle Warranty). You'll also be entitled to 5 years' Premium Roadside Assist. Visit honda.com.au/warranty for more information.

Honda Capped Price Servicing~

At Honda, we believe you should have a clear idea of what it will cost to maintain your vehicle and maximise its value. That's why we've introduced Honda Capped Price Servicing. Available nationally through all Authorised Honda Dealers, it sets a maximum price for each of the scheduled services on your HR-V.

Honda Insurance^

If you're looking for cover as reliable as your HR-V you really need Honda Motor Vehicle Insurance.

You'll enjoy a range of benefits, including:

- 3-year new replacement if your Honda is a total loss.
- Genuine Honda approved parts for the first 3 years.
- Lifetime guarantee on authorised repairs.

For more information visit honda.com.au/insurance

Honda Finance

Whether you're buying a Honda for yourself or a business, we have a wide range of flexible finance and leasing options. So see your Honda Dealer to find a financial solution that suits you as perfectly as your HR-V does. For more information visit honda.com.au/finance

Honda Merchandise

Show your true colours with genuine Honda merchandise. For everything from apparel to travel goods, visit your local Honda Dealer or view the range at honda.com.au/merchandise

For more information visit honda.com.au/cars or Freecall 1800 804 954

*Honda warranties apply where due care is exercised by the owner and the vehicle is maintained in accordance with the Owner's Warranty and Service Manual. Please visit honda.com.au/warranty for full terms and conditions. †5-year/140,000km Warranty Plus is inclusive of 3-year/100,000km New Vehicle Warranty. Please refer to Honda's Warranty documentation for conditions at honda.com.au/warranty ~Available on selected models only. For full terms and conditions please visit honda.com.au/CappedPriceService ^Honda insurance is underwritten by Allianz Australia Insurance Limited Licence No. 234 708 ABN 15 000 122 850 (Allianz). In arranging this insurance Honda Australia Pty. Ltd. ABN 66 004 759 611 and the authorised dealers act as agents of Allianz and not as your agent. In entering into a contract of insurance for this policy, you acknowledge that this Product Disclosure Statement (PDS), your Schedule and any other document which we tell you forms part of this policy (Policy Documentation), sets out the entire agreement that exists between you and Allianz in connection with this policy. You also acknowledge that you have not relied on any prior representations which are not expressly included in or are otherwise inconsistent with the Policy Documentation. Neither Honda nor any of its related companies have any liability in respect of this policy.
